

Waterford Public Library
GENEALOGY WORKSHOPS: A SEVEN PART SERIES
MONDAY, APRIL 3 - MAY 15, 2017
(REGISTRATION RECOMMENDED.)

This program series made possible with a donation from the Evelyn Carlson Widham Memorial Fund.

Monday, April 3, 6:30-8:00 pm

Part 1: Genealogy Basics

Interested in genealogy research and don't know where to begin? Come learn how to organize your research and the best way to start your journey. Workshop led by Genealogist Jennifer Chretien.

Monday, April 10, 6:30-8:00 pm

Part 2: Web Research

Learn how to use the internet to maximize your research and how to properly evaluate the validity of what you find. Workshop led by Genealogist Jennifer Chretien.

Monday, April 17, 6:30-8:00 pm

Part 3: Using the Census & Military Records

How to de-code and use the U. S. Census and military records to find clues about your ancestors. Workshop led by Genealogist Jennifer Chretien.

Monday, April 24, 6:30-8:00 pm

Part 4: Record Searching the Old Country

How to find immigration information, ship manifests, and tips on where to search for records outside of the U. S. Workshop led by Genealogist Jennifer Chretien.

Monday, May 1, 6:30-8:00 pm

Part 5: Brick Walls, Where do we go from here?

How to organize your information, basic preservation tips, and problems you might encounter in your research and how to get past them. This is a more collaborative course, so come prepared with your thinking cap to help each other out! Workshop led by Genealogist Jennifer Chretien.

Monday, May 8, 6:30-8:00 pm

Part 6: Cemetery Research

Join Genealogist Michael Spellmon as he shows how cemetery research is essential for family history research. Mr. Spellmon will discuss print and online guides to researching cemeteries, how to locate cemeteries, the types of cemeteries and cemetery records, published guides, cemetery records online and graveyard associations.

Monday, May 15, 6:30-8:00 pm

Part 7: DNA Testing

Genealogist Nora Galvin will lead this workshop focusing on how to use autosomal DNA results from the 3 main companies and will include short forays into the company websites. She will also include information about how DNA proves relationships and how to determine relationships.
