Dear Secretary Kotfer,

I am writing to voice my support in the plans to construct family-rental units at 109R and 131 Clark Lane. As a young adult, I relate to many of my peers who struggle to find affordable housing while studying. Housing such as this would give university students access to affordable housing, allowing them to study and contribute to the community, in addition to avoiding student loans associated with on-campus living.

Housing such as this would also give young families a stable step in life to begin to educate their children and begin their careers with the comfort of having a home.

Please share this information at the planning and zoning commission meeting scheduled on June 13th.

With much respect,

Sara Beth Bouchard
Waterford resident and college student
