RE: Proposed Affordable Housing Development 109R & 131 Clark Lane

This letter is in regards to the proposed affordable housing development at 109 R and 131 Clark Lane. I want to share with the Planning and Zoning Commission the importance of having in Waterford affordable housing. Our young adults that are attending college in state are staying in the area hoping to have an apartment, a home, at an affordable price. Our young adults that are attending college out of state are returning home and need affordable homes. Our seniors that are aging and need a smaller property, need affordable homes. Our adults with disabilities need affordable homes. This location is central with shopping areas, community center, senior center located closed by.

I am in favor of this development as it will bring affordable housing to Waterford and provide residents with access to homes.

Respectfully,

Claudia Bachmann-Bouchard
